Honorable William J. Casey
Director
Central Intelligence Agency
Washington, D.C. 20505

Dear Mr. Casey:

The Central Intelligence Agency has been identified as a federal agency which is interested in science and technology programs at historically Black colleges and universities (HBCUs). Because of this interest, we feel that you and your agency would be interested in participating in the activities presented at a conference described below.

On September 15, 1981 President Reagan issued Executive Order 12320. This Executive Order seeks to achieve a significant increase in the participation by historically Black colleges and universities in federally sponsored programs. Section 1 of the Executive Order states: "The Secretary of Education shall supervise annually the development of a Federal program designed to achieve a significant increase in the participation by historically Black colleges and universities in Federally sponsored programs. This program shall seek to identify, reduce, and eliminate barriers which may have unfairly resulted in reduced participation in, and reduced benefits from Federally sponsored programs."

In keeping with this commitment, on September 18-19, 1986, a conference will be held at the National Academy of Sciences in Washington, D.C. The conference is sponsored by the Office of Science and Technology Policy; and the Office of the White House Initiative on HBCUs, U.S. Department of Education.

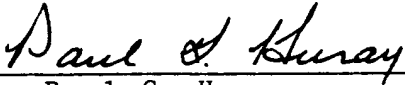

One of the important purposes of this conference will be the exhibition and examination of exemplary joint programs, sponsorships or alliances, between HBCUs and federal agencies or federally sponsored programs which are designed to enhance the academic/research capability of HBCUs, or to increase the number of Black scientists and engineers.

Page 2

We have, therefore, requested your agency representative to the White House Initiative on Historically Black Colleges and Universities to identify potential programs and individuals for inclusion in the conference.

We would appreciate your support of this conference.

Sincerely,

Dr. Paul G. Huray
Senior Policy Analyst
Office of Science and Technology
Policy

Dr. Margaret J. Seagears
Executive Director
White House Initiative on
Historically Black Colleges
and Universities
